

FANDUEL GROUP ANNOUNCES PARTNERSHIP EXTENSION WITH SPORTRADAR

Sportradar selected as FanDuel's data and odds supplier for US sports including the NBA, MLB, and the NHL

LONDON, August 20, 2021 – FanDuel Group, part of Flutter Entertainment plc, has announced an extension of its existing partnership with Sportradar, which makes Sportradar the chosen data or odds supplier for US sports to FanDuel Group until 2028.

Under the terms of the agreement, Sportradar will provide the FanDuel Sportsbook with access to the most comprehensive suite of betting products in the marketplace, including complete pre-match betting services, live betting services, and betting entertainment tools like live match trackers and betting widgets. This expanded partnership will also enhance the In-Play betting experience for FanDuel Sportsbook customers.

“Low latency live data is the essential fuel for our proprietary trading models to deliver a quality in-play betting experience to our customers,” said Niall Connell, Sportsbook General Manager at FanDuel Group. “Sportradar’s data powers our in-house models allowing us to offer a large number of in-game betting markets and it’s the collaborative nature of our partnership that will evolve FanDuel’s in-play product offering in the years to come.”

“With FanDuel being the leading US sportsbook, this deal further underscores Sportradar’s position as the data and odds supplier of choice for US sports, including the NBA, MLB, and the NHL,” said Carsten Koerl, Global CEO, Sportradar. “Both Sportradar and FanDuel have established market leading positions through investment in innovation and cutting-edge products and services and this expanded agreement enables us to work together to further evolve FanDuel’s offering, particularly in areas like in-play betting. We’re looking forward to deeper integration with the FanDuel team to continue building on the success we’ve had together thus far.”
